SUPPLEMENTAL REISSUE DECLARATION

Sir:

We, Martin R. Kestle and Jan M. Manda, Canadian  
citizens respectively residing (and having Post Office  
addresses) at R.R. #3, Site 16, P.O. Box 7 Everett, Ontario  
L0M 1J0 Canada, and 132 Anndale Drive Toronto, Ontario M2N 2X8  
Canada, hereby declare and say that:

Doc # 213201.00187, 4/13/2005, 10/29/2005, 11/13/2005

1. We believe that we are the original, first, and only joint inventors of the subject matter which is claimed in the subject reissue application identified above.

2. We have reviewed and understand the contents of the reissue application, including the claims.

3. We acknowledge our duty to disclose to the Patent Office all information known to be material to patentability as defined in 37 C.F.R. § 1.56.

4. We believe that the original above-identified U.S. patent is partly inoperative by reason of our having claimed more or less than we had the right to claim in that patent. The error in the issued patent is that Claim 5 is a multiple dependent claim which depends upon another multiple dependent Claim 4, in apparent violation of 37 CFR 1.75(c). In particular, issued Patent Claim 5 depends upon "any one of claims 1, 2, 3, or 4..." However, Claim 4 itself

-00 9208001 : 2-2767 10-07) 21512+2001: 10700/2664-TAMM:" : 50

depends upon "...claim 1, claim 2, or claim 3 ... ." 37 CFR 1.75(c) states, *inter alia*, "A multiple dependent claim shall not serve as a basis for any other multiple dependent claim." Accordingly, this error in issued patent Claim 3 is corrected in the present reissue application.

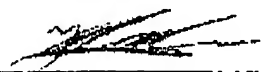

5. All errors being corrected in the present reissue application, including the error identified above, arose without any deceptive intent on our part. Every error in the patent which was corrected in the present reissue application, and is not covered by the prior declaration submitted in this application, arose without any deceptive intention on our part.

6. We hereby declare that all statements made herein of our own knowledge are true, and that all statements made on information and belief are believed to be true; and further, that these statements were made with the knowledge that willful false statements and the like so made are punishable by fine or imprisonment, or both under Section 1001 of Title 18 of the United States Code and that

such willful false statements may jeopardize the validity of the application or any patent issued thereon.
